

UI/UX Design Specification

Eila Eco Pencils E-Commerce Platform

1. Purpose

Defines the visual language, interaction patterns, responsive behavior, accessibility, and page-by-page UI requirements for the Eila Eco Pencils ecommerce platform.

2. Design Principles

Clean, eco-friendly, modern, accessible, fast, consistent, and mobile-first. Every interaction should reinforce sustainability and simplicity.

3. Design System

Primary colors: Forest Green, Leaf Green, Earth Brown, White. Typography: Poppins for headings and Inter for body text. Use 8px spacing system and rounded cards.

4. Component Library

Component	Purpose	States
Navbar	Primary navigation	Default, Sticky, Mobile
Hero Banner	Highlight offers	Desktop, Tablet, Mobile
Product Card	Show product	Hover, Loading, Out of Stock
Search Bar	Find products	Default, Focus, Results
Cart Drawer	Quick cart	Empty, Filled
Buttons	Actions	Primary, Secondary, Disabled
Forms	Checkout & Inquiry	Default, Error, Success
Toast	Feedback	Success, Error, Warning

5. Home Page

Hero section, featured products, categories, sustainability banner, testimonials, CTA, footer.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

6. Shop Page

Filters, sorting, pagination, search, responsive grid, quick add-to-cart.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

7. Product Details

Image gallery, specifications, eco impact, stock status, related products, reviews placeholder.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

8. Cart & Checkout

Editable cart, shipping summary, address form, Razorpay payment, order confirmation.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

9. Corporate Inquiry

Company details, quantity, requirements, file upload (future), submission confirmation.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

10. Admin Dashboard

Revenue cards, charts, recent orders, low stock alerts, quick actions.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

11. Admin CRUD

Product management, category management, inventory updates, order status changes.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

12. Responsive Design

Desktop $\geq 1200\text{px}$, Tablet 768–1199px, Mobile $< 768\text{px}$. Mobile-first layouts.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

13. Accessibility

WCAG-inspired contrast, keyboard navigation, focus indicators, semantic HTML, alt text.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

14. Interaction States

Skeleton loaders, empty states, success screens, validation errors, confirmation dialogs.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

15. UX Guidelines

Reduce checkout friction, guest checkout, visible shipping costs, clear feedback, minimal clicks.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.

16. Future Enhancements

Dark mode, PWA, AI recommendations, multilingual UI, personalization.

Design Notes

Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers. Include annotated wireframes, spacing, typography hierarchy, color usage, interaction flows, responsive behavior, and accessibility considerations for developers and designers.
