

Eila Eco Pencils - Vision Document

Project Vision

Build a modern, scalable and user-friendly ecommerce platform for Eila Eco Pencils that promotes sustainable stationery products while enabling customers to browse, purchase and enquire about products online. The platform should replace the discontinued website with a secure, maintainable and high-performance solution.

Business Objectives

- Increase online sales and brand awareness.
- Simplify product and order management.
- Support corporate bulk orders.
- Provide secure INR payments using Razorpay.
- Improve SEO and mobile experience.

Target Audience

Retail customers, schools, parents, eco-conscious buyers, corporate gifting clients and distributors across India.

Core Features

Customer storefront, product catalog, guest checkout, Razorpay payments, admin dashboard, analytics, inventory management, bulk enquiry, WhatsApp confirmation, responsive UI, SEO.

Technology Vision

React + Vite frontend, Supabase (PostgreSQL, Auth, Storage), Node.js payment service, Razorpay, Vercel, Render.

Success Criteria

Fast (<3s load), responsive, secure, scalable, maintainable, easy for administrators, production-ready architecture suitable for future enhancements.

Future Vision

Customer accounts, reviews, wishlist, coupons, invoices, AI recommendations, multilingual support, PWA, ERP integration.
